## AT4 HEAT LIGHT **ANTI-ARMOUR** WEAPON

The AT4 HEAT provides the soldier with the firepower to defeat armoured threats as well as other targets of opportunity that he is faced with.

The AT4 is a disposable preloaded recoilless weapon, ballistically characterized by a combination of a very flat trajectory and a low dispersion, attained by high velocity. These characteristics provide the soldier with a highly accurate and easy to use weapon, with an effective range of 300m.

Through its unique, shaped-charge, warhead design the AT4 HEAT combines the ability to penetrate the armour of modern light armoured vehicles with an outstanding behind armour effect. Inside the target vehicle the warhead produces a lethal combination of high pressure, intense heat and blinding light. This combination results in massive internal damage to the vehicle as well as a high probability of igniting both the ammunition and the fuel carried by the target vehicle.

STATUS	COMBAT PROVEN
WEAPON TYPE	RECOILLESS AND DISPOSABLE
WARHEAD DESIGN	UNIQUE SHAPED-CHARGE

# SAAB

## FIREPOWER PROJECTION

- In AT4 HEAT the dismounted infantry has a powerful tool to project highly concentrated firepower on battlefield threats, armoured as well as others.

## WORLDWIDE SERVICE

- Through its current worldwide service the AT4 HEAT is thoroughly combat proven and has demonstrated its capabilities as being powerful, accurate and very easy to handle.

## FORCE THE ENEMY TO CHANGE

- With the AT4 system spread in your dismounted units any mechanised unit with the intention to make an assault on your positions will have to reconsider its tactical behaviour. In this way the AT4 system will influence the enemy even before the battle starts.

**AT4 HEAT** is extremely effective through its accuracy and ease of use.

Projectile and launcher.

## TECHNICAL DATA

Calibre	84 mm
Weight	6,7 kg
Length	1 m
Armour penetration	> 420 mm
Muzzle velocity	290 m/s
Unmatchable behind armour effect	

## TRANSPORT BOX

L x W x H	1051 x 791 x 253
Weight (4 pcs)	45 kg
Unit load (16 pcs)	195 kg
ADR/RID IMDG/DGR 1.1E	
FN/UN: 0181
