CW-39 is a combat weapon chambered in 7.62x39mm, designed by POF to meet the requirements of Military and Law Enforcement Agencies. The weapon features an Integrated picattiny rail for optics and accessories, improved accuracy due to free floating barrel, reduced recoil felt due to the incorporation of Buffer and IMD, an In-line recoil setup, adjustable stock, ambidextrous control and ease of conversion training for troops trained on G3A3.ss
